care products with natural lip balm recipes you'll want to eat! Though the methods may vary, most of these natural lip balms rely on a mixture of plant-based oils, beeswax, and tasty flavours your lips will love.

Wrap up your homemade natural lip balm in upcycled mint tins, old lip gloss containers, or little jars. You'll find that most of these recipes require time (about 3 hours) as the mixtures set, but your patience will be rewarded!

About the author :

Maryruth has been seeking the keys to environmental justice - both at home and at work - for over a decade. Growing up adjacent to wild spaces, Maryruth developed a healthy respect (and whimsical appreciation) for things non-human, but her practical mind constantly draws her down to earth to ponder tangible solutions to complex eco-problems. With interests that range from green living to green business, sustainable building designs to organic gardening practices, ecosystem restoration to environmental health, Maryruth has been exploring and writing about earth-matters for most of her life. Of special interest is the subject of ecopsychology and the role the natural world plays in the long-term health and well-being of humanity.
